

## BIOCIDE SERVICES

DISCOVER UNPARALLELED BIOCIDESOLUTIONS WITH REMOTE.

*Introducing Remote's Biocide Services - Unrivaled Solutions for Your Operation*

Discover unparalleled biocide solutions with Remote. Our cutting-edge techniques set the standard in determining the minimum effective dose requirements, assessing bacterial levels, and evaluating crucial water quality parameters.

Our investigative approach ensures pinpoint accuracy in selecting the right products and processes tailored to your operation. Say goodbye to interruptions in production goals caused by unwanted biofilm, biological souring, or unexpected decline rates.

With Remote, achieve optimal economic performance and operational efficiency.

**Simple solutions that support the bottom line have never been more clear.**

# FOR ALL YOUR BIOCIDES NEEDS

We offer competitive pricing on all registered oilfield biocides. Leveraging our deep knowledge and extensive experience, we assist partners in assessing and selecting the appropriate chemical solutions at optimal dosage levels.

## BIOCIDES SOLUTIONS

TAILORED SOLUTIONS FOR YOUR PROJECT'S SUCCESS

### Support:

We don't just sell biocides; we provide data-driven applications. Offering a comprehensive range of registered oilfield biocides is just the beginning. We complement our offerings with microbial expertise, ensuring that every decision is backed by data.

### Compliance:

We utilize partnerships with the top microbiologists in Oil and gas and use registered biocides in our Microbial Mitigation Product Line so we can provide the best service for your biocide needs.

### Microbial Testing:

We have several options for microbial testing to ensure that no matter what your issue is, we can get to the solution.

- ATP Testing
- DNA qPCR
- DNA 16S Sequencing
- Kill Studies, Biocide Selection Studies, Dosage Optimization Studies
- Program Reviews
- Program Recommendations

## OVERVIEW

At Remote Water Group, we provide competitive pricing on all registered oilfield biocides. Leveraging our profound expertise and extensive experience, we expertly navigate our partners through the assessment and selection process, ensuring they deploy the most suitable chemical solutions at the perfect dosage levels.

At Remote, we have access to a wide range of registered oilfield biocides and maintain a robust network of partner blending facilities across major basins. This infrastructure enables us to offer highly competitive pricing. Continuously expanding our biocide product line, we prioritize ensuring we have tailored solutions for our clients' needs.
